Ford Ranger 2011+ Installation Instructions

1) Remove center console fascia by releasing the clips at the top first.

2) Then release the clips at the bottom.
Ford Ranger 2011+ Installation Instructions

3) Remove the three plugs attaching cable looms to the console.
Ford Ranger 2011+ Installation Instructions

4) Offer up the left hand side bracket (032-02-0298) and scribe lines top and bottom as shown on the air vent lip. This material will be removed in stage 7 to allow clearance for the brackets.
Ford Ranger 2011+ Installation Instructions

5) Repeat the process outlined in stage 4 for the right hand side bracket (032-02-0297).
Ford Ranger 2011+ Installation Instructions

6) Remove the left and right hand air vents as shown.
Ford Ranger 2011+ Installation Instructions

7) Carefully remove the material between the scribed lines as shown below on both air vents.
Ford Ranger 2011+ Installation Instructions

8) Replace the air vents and remove the two screws retaining the CD changer pictured below.
Ford Ranger 2011+ Installation Instructions

9) Fit the left hand side bracket (032-02-0298) as shown using one of the screws removed in stage 8.

10) Fit the right hand side bracket (032-02-0297) as shown using the remaining screw removed in stage 8.
11) Drill two 2mm diameter pilot holes as shown and fit two self tapping screws as shown.
Ford Ranger 2011+ Installation Instructions

12) Repeat the process outlined in stage 11 for the left hand side bracket as shown.

13) Reattach the three cable loom plugs to the center console as shown.
Ford Ranger 2011+ Installation Instructions

14) Carefully replace the center console as shown. NOTE:- bending the left and right hand side brackets out slightly will assist during this stage. They can be bent back inwards once the center console is fully in place.
Ford Ranger 2011+ Installation Instructions

15) Fit the front bracket (032-02-0296) as shown using four shake-proof washers (TD503481) and four socket button head screws (TD503712).
Ford Ranger 2011+ Installation Instructions

16) Rotate the VESA plate on the Tilt & Rotate Assembly by 180 degrees as shown. Remove the four socket head cap screws, rotate the VESA plate by 180 degrees and re-fit the four socket head cap screws.
Ford Ranger 2011+ Installation Instructions

17) Fit the docking station to the VESA plate as shown. NOTE: Ensure the lowest set of holes are used to obtain the correct height.
18) Fit the Docking Station / Tilt & Rotate Assembly to the front bracket as shown using the provided M8 fasteners.

NOTE: It may be necessary to temporarily remove the rubber edge strip to allow for correct fitment.

Ensure that the location lugs are correctly engaged before final tightening to prevent unwanted rotation.

For more information, contact your local Motion Reseller or Motion Representative.
