BENEFITS

Charge extra batteries in about 2 hours

Small footprint accommodates small spaces

Capability for an infinite number of charging bays in one location

The Battery Charger for the F5 or the C5 is an external bay to charge additional batteries, giving the capability of a full day of performance.

The convenient interlocking design offers ways to have as many charging bays, as needed, in one location.

For those long, busy work days, rapidly charge an infinite amount of additional in about 2 hours

Grab 'n go with the one-handed design for easy power charging connection without any cables.

The sealed F5 is a rugged, highly mobile tablet PC providing electronic clipboard functionality that is the ideal productivity tool for field workers who compute and enter data while standing or walking.

The C5 Mobile Clinical Assistant is a hospital-grade device specifically designed for use by clinicians across healthcare environments. Its rugged, disinfected design, superior ergonomics and integrated features provide improved productivity while supporting the "five rights" of patient care (right patient, right time, right medication, right dosage, right route).
