

# **Motion**® Mounting Bracket for 12V or 24V DC/DC Adapters by Lind

The Motion Mounting Bracket is designed to securely mount Motion's 12V or 24V DC/DC adapters in a wide variety of vehicles including cars, trucks and boats.

The convenient integrated cable tie-down design prevents accidental disconnection of both the input and output cables.

Manufactured from steel and finished in a durable textured powder-coat, the mounting bracket ships with fasteners suitable for installation to a wide range of surface types.

For more information, contact your local Motion Reseller or Motion Representative.
