

# Motion Protective Display Film

## PRODUCT

Protective Display Film for Motion Tablet PCs

## BENEFITS

Durable hard coat provides added protection to the display helping minimize minor scratches and scuffs

Ultra clear film allows greater than 93% transmission, revealing a bright display with no color distortion

Fingerprint reduction on View Anywhere<sup>®</sup> Display without scratch and surface abrasion

Removable and replaceable with no residue left behind

Minimizes glare

Easy to apply and clean

Durable anti-static material helps to prevent the attraction of dust and lint during application

### Chemically Resistant to:

MEK, Toluene, Acetone, Cola, IPA, Water, Insoluble Marker, etc.

The **Motion Protective Display Film** is an ultra-clear, thin and durable protective film. With a coating designed to reduce reflections and glare, the Motion Protective Display Film provides a vibrant and sharp display even in brightly lit conditions. The protective film can be replaced at any time, and its special adhesive will not leave a sticky residue behind when removed.

This high-performance, durable film is recommended for outdoor use, dirty/dusty environments or for applications requiring highly-repetitive pen strokes.

**Motion Protective Display Film available for the following products:**

**C5-Series Tablet PCs**

**F5-Series Tablet PCs**

**J3400 Tablet PC**

**J3500 with Capacitive Dual Touch**

**CL900 Tablet PC**
